Dear Ms. Smith,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. Your email will become a part of ND-2015-20-E - Duke Energy Carolinas: Foothills Transmission and Substation Project- 45-Mile Transmission Line Between Asheville, NC, Power Plant and New Substation Near Campobello, SC, and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Coordinator

Aside from the many personal properties this proposed line will impact, it proposed to go thru the edge of the Polk County Middle School property, impacting hundreds of our youngsters and the future of our area on visual and very personal emotional levels.

Why can this project not at least go underground for better protection?
or better yet be routed thru a less populous area?

Hoping and voting against this proposed route, I remain,

Sincerely,
Jan Smith
